

INTERNATIONAL MARKETING, INC. TECHNICAL BULLETIN

SUBJECT: EQUAL Applications for Bus & Motor Coach Wheel Positions

DATE: September 2, 2004

When installing EQUAL into bus or motor coach tires, the application for a dual position is identical to the single application. In other words, as long as it is a bus and as long as the tires size is the same, the EQUAL quantity used is the same on buses and coaches. Due to lack of load force on these vehicles the dual application does not require extra EQUAL.
