

INTERNATIONAL MARKETING, INC. TECHNICAL BULLETIN

SUBJECT: EQUAL Drop In Bag

DATE: July 24, 2002

- The EQUAL Drop-In Bag is manufactured of machine grade paper which will break apart within five (5) to ten (10) miles of normal driving.
- Upon breaking apart, the EQUAL Drop-In Bag will allow the EQUAL product to leave the bag and move freely within the tire.
- Over time, the Drop-In Bag will begin to break down into progressively smaller pieces.
- As it breaks down, the Drop-In Bag will not interfere with the performance of Equal Tire Performance.
- The EQUAL Drop-In Bag has been tested for compatibility with tire innerliners and valve hardware, and has been proven safe for both.
- The EQUAL Drop In Bag is a machine grade paper that is reinforced with (LDPE) low density polyethylene material. This thin LDPE membrane is necessary for the heat sealing process of forming the package.
