Chambersburg, PA 17201  
USA

Dear Mr. Fogal, Jr.,

Our engineering department has completed its evaluation of your Equal (Tire Performance Enhancer Powder) used in conjunction with our tire pressure/temperature transmitter that is mounted inside a tire /wheel assembly.

Although the test was brief, we can report that the Equal product, when used as recommended, has shown no adverse effect on the accuracy or reliability of our transmitters in sensing tire inflation pressure and contained air temperature values.

Sincerely,

A handwritten signature in black ink that reads "John Bolegoh". The signature is written in a cursive style.

John Bolegoh  
Technical Services Manager
